## Description:

Lockers made of chipboard are highly regarded and versatile in their application - from modern offices to fitness clubs.

In the LUXA series, the available color palette of chipboard panels is impressive, and moreover, they are available in natural textures and patterns such as stone or wood. We do not limit ourselves only to doors; the bodies can also be made according to individual preferences, based on a wide range of panel decors.

An additional accent is provided by the

edges bonded with ABS tape using the latest hot-air edge banding technology, giving the effect of an almost invisible joint. This innovative technology is a standard for us, although it appeared on the market only a few years ago.

For facilities where furniture is not exposed to excessive moisture, LUXA lockers are an excellent choice because they offer the possibility of creating original and stylish compositions at an attractive price.

-  only Torx screws are used
-  fully assembled product
-  the possibility of custom built
-  smooth inner walls
-  custom sizing available
-  easy to clean

**Quality confirmed by certificates**

**Budget solutions**

**Even gaps between the doors**

**Frontlaying doors**

**Decors also available in 3D structure**

**Available in High Gloss**

# Locks for lockers

**Security** - a common value of the locks we offer, that is why we only provide those from reputable manufacturers. Below, we describe three additional features that guided us in selecting the locks for our products.

**Waterproofnes** - prepared to work in any conditions.

Prioritizing quality above all, we have decided that all locks offered by us are suitable for use in moist areas.

**Interchangeability** - lock models can be exchanged at any time, changing from a lower model to a higher one. This way, the locker room can be modernized without the need for costly door replacement. When changing locks to deposit or electronic locks, additional holes will have to be made in doors.

**Availability** - don't waste time waiting.

A strong aspect of our offer is the availability of locks on stock, significantly reducing the time needed to complete the order. For projects with slot or digital locks above 200 compartments, please contact us to confirm availability.

**Cam locks**, the locks we offer have a 1/1000 combination, meaning the chance of opening with your key any another locker is 0.1%.

**Padlock locks**, an alternative to key locks is padlocks. The recommended shackle diameter for padlocks is 5-7 mm.

## The option to use any lock.

We are not limited to our own selection; we can integrate the locker with any lock specified by the client.

**Code locks** are maintenance-free solutions. All code locks offered by us have a master key opening option in case the code is forgotten.

**Deposit locks**, Coin-operated or token-operated locks are capable of accepting coins or tokens into a special container. Locks can operate on coins of 1/2 EUR. In case of key loss, locks can be opened using a master key.

**Electronic lock** that support the standard RFID are modern programmable locks operated by CARDS, WRISTBANDS, or other RFID TOKENS. Available in both OFFLINE versions powered by batteries and ONLINE versions powered externally.

### SMART LOCKER transforms lockers into solutions

ALSANIT introduces innovative solutions in the field of lockers with smart locks, enabling electronic control over them.

Thanks to cooperation with the renowned brand SMART LOCKER, representing the most advanced intelligent locking system available on the market, we can confidently offer this solution to our customers.

SMART LOCKER stands out not only for its ease of use but also for its rich configuration options, ensuring easy management and convenient use.

The possibility of integration for any ALSANIT locker system

Full service including installation and training

The ability to integrate with the client's database

The ability to customize the software to individual needs

**SMART LOCKER** is an intelligent locker system that introduces a new era of facility management.

### Examples of applications by industry

- Receive all your parcels from any carrier in one place.
- Effortlessly dispense workwear or distribute mail.
- Exchange documents or keys using easily managed lockers.
- Reduce costs by flexibly assigning users to lockers in the changing room.
- Control the circulation of tools or electronic equipment.
- Earn money by selling oversized items in hospitals, sports facilities, etc.

## The **STOCK** version - at no extra cost

Take advantage of our extensive stock collection of available HPL, MFC, and GLASS, as well as metal paint, and configure furniture at no extra cost. There are countless configuration possibilities.

## The **EXTENDED** Version - extra charge

If you would like to have the furniture bodies made in colors other than those originally designated for bodies, there is an additional surcharge of +15%.

## **BESPOKE** Version - custom color scheme upon individual request

In addition to non-standard board colors, we can also enrich the project with graphics or decals. If you wish for colors not available in our warehouse collection, you can choose any board color, paint, or decor from the available palette, and we will order it for you.

HPL + MFC - available from the ALSANIT board suppliers' collections  
PAINT FOR METAL + GLASS - available from the RAL color collection
